Description: Half the earth's surface is covered by water more than a mile deep, but most of this watery world is a mystery to us. In fact, more people have stood on the surface of the moon than have visited the deepest spot in the ocean. Come along as we travel down, down, down, from the surface to the bottom of the sea. Along the way you can see jellyfish that...

Review: Aside from having awesome artwork, this book does a really good job of instilling a sense of wonder about just how deep the oceans are. My kids (5 and 8) ask me to read this most nights now. Some nights we end up staying up way too late because they spend 5 minutes per page geeking out on the creatures, immense pressures, and what if scenarios....
